

Quality Policy of Pipe Sector

It is the policy of Pipe Sector at Alkhorayef Industries Company to provide products and services that meet and exceed the needs and expectations of its Customers in relation to the "fitness for purpose", "safe in use" and "value for money" philosophy and to achieve continual improvement in its products and its Quality Management System (QMS). The nature of the Company's requirements places particular emphasis on;

Experience, Ability, Performance, Quality, Safety, Reliability, Price and Delivery.

This Quality Policy is a statement of internal discipline and an external assurance of our recognition of the need for Total Quality Control through all stages, from a demand creation and initial inquiry through to final release and delivery to our Customer up to satisfy them after service.

Quality Policy is communicated and understood within our Sector and is regularly reviewed by top management. The Company ensures that its products conform not only to the requirements of the Customer, but also to the specified requirements of the Company and independent regulations as applicable. This is achieved by adopting a formal QMS which is fully integrated with all other management disciplines within our Sector and Company.

Records form a vital part of the system requirements to ensure that the system remains effective and to provide objective evidence that the controls are being carried out.

The management team periodically reviews the performance of the QMS to ensure its effectiveness and continuing suitability efficiently. This Quality Manual has been generated and introduced along with its associated procedures with the full support and commitment of company CEO.

The QMS is based on the requirements of API Q1 9th Edition.

Abdullah Ibrahim Alkhorayef

CEO
